

# 6 WARDROBE MUST-HAVES

START BUILDING THE PERFECT CAPSULE WARDROBE

## JEANS

- MUST fit perfectly.
- Aim for one size smaller than you think you are. They WILL stretch.
- Crop slightly for a feminine touch & to show off those great shoes!

## WHITE JACKET

- A cropped white jacket will be your go-to piece to freshen up any outfit all year long.
- Layer over longer, tops to accentuate the waist & add dimension.

## BLACK PANTS

- For day to evening pizzazz & classic style, think skinny ponte pants or tailored capris with statement heels & your white jacket.
- Mix-n-match tops & shoes for different looks.

## WHITE SHIRT

- A classic staple. Collar up with a scarf tucked in, with jeans & loafers by day.
- So many more ways to wear this one...will explain more in another infographic!

## LBD

- The little black dress is a timeless classic.
- A simple shift, over a white shirt with opaques & block heels for work.
- No shirt, a bit of bling & statement heels by night. You get the picture!

## FLOATY TOPS

- Floaty? I'm talking pretty, soft, longer-line, interesting necklines & sleeves in an array of colours.
- Mix & match under classic jackets to change up your look.
